

~~((d) If the Public Works Director determines that an underground system cannot reasonably be installed according to accepted engineering practices, the requirements of this section may be waived upon receipt of a written notice from the appropriate utility service provider. Such a waiver shall be noted in the permit or shall be construed as not being granted. If undergrounding is determined not to be feasible, the applicant must either sign a concomitant agreement or a no-protest agreement of the formation of an LID for future undergrounding. Determination of which form of promissory shall be used shall be at the discretion of the Public Works Director.))~~

(e) Nothing in this section nor any other section in relation to underground utilities shall apply to power lines carrying a voltage of 15 kV or more, nor shall it be construed to prohibit the placement of said mounted transformers, terminal pedestal, or other electrical and communications devices above ground, as determined by the appropriate utility service provider involved.

(f) Repair, maintenance or upgrading of existing underground service shall not be relocated overhead.
